Hi, I've had a stable build with many custom indicators for a while, but after updating to v25.0 anytime I add a custom indicator I am given the following log output.

```
6151.129f302a262c92b6bcf4.js:1 Uncaught Error: Value is undefined at n
(6151.129f302a262c92b6bcf4.js:1:142) at v._applyPlotToPrecalculatedAutoscaleInfo
(library.6297b1e4665eaf652aeb.js:769:1787) at i.plots.filter.filter.reduce.fields
(library.6297b1e4665eaf652aeb.js:768:2058) at Array.reduce (<anonymous>) at
v._fillPrecalculatedAutoscaleInfo (library.6297b1e4665eaf652aeb.js:768:2038) at v.priceRange
(library.6297b1e4665eaf652aeb.js:759:58) at v.autoScaleInfo (library.6297b1e4665eaf652aeb.js:759:760)
at Pe._recalculatePriceRangeImpl (library.6297b1e4665eaf652aeb.js:400:2891) at Pe._makeSureItIsValid
(library.6297b1e4665eaf652aeb.js:401:1170) at Pe.isEmpty (library.6297b1e4665eaf652aeb.js:394:679)
```

As per the only note that appears relevant in `Breaking changes` in the commit message I have tried adding `request_only_visible_range_on_reset` to disabled features, but this was not effective.

Would you be able to share your custom indicator so we could check the code and locate the issue? If you would prefer not to share the code in this issue then I could provide an email address.

velodataapp on Jun 26, 2023 Author

Hi, sure. It is all of our custom indicators but I will share one of the simplest. Can you share an email please?

The library is expecting all the plots (normal plots like `type: 'line'`) to be specified within the `styles` property of the metainfo. This is where it get's the titles for the plots.

This is the root `styles` property (not the `defaults/styles` property)

```
defaults: { /* ... */},
styles: {
  Column: { title: "Column", histogramBase: 0 },
  Line: { title: "Line" },
  "Up Column": { title: "Up Column", histogramBase: 0 },
  "Down Column": { title: "Down Column", histogramBase: 0 },
},
inputs: [/* ... */],
```

This was always meant to be included, but previously the library was more lenient when it was missing.
